

Product Announcement

CP570EN Batch Encoder

March 24, 2005

CashTech is pleased to announce the official launch of the CP570EN Batch Encoder specifically designed for the Caisse Populaires environment. The CP570EN is custom programmed to handle the document processing within the Caisse Populaires branches.

The CP573EN is a direct replacement for the Sharp, NCR, Standard Register and Walther EC90 encoders.

Product Description :

- Full French language support
- 3,400 documents per hour
- Quiet – minimizes sound generated by the encoding process by using a unique technology
- 20 programmable messages accommodating a variety of formats
- Drop-in ribbon cartridge – “Maintenance-free” Hammer
