CacheSYSTEM 7900s:

▸ **COLLECT & SECURE CASH:**

Once your cash is placed in an Armor safe, you can rest assured it will stay there. Our products are designed and constructed to rigorous standards to protect each point of access and reduce your risk of robbery.

▸ **COUNT & VALIDATE FUNDS:**

Each safe is equipped with industry leading bill recognition technology that provides the highest level of first time bill acceptance and unsurpassed counterfeit detection. Counted funds are secured in cassettes for easy transport and deposit. This series may be fitted with one or two bill validators.

▸ **DISPENSE CHANGE:**

Our vending magazine is simple to load and count. The inner view provides a visual count of inventory without a dipstick.

▸ **AUDIT & REPORT ACTIVITY:**

Every transaction is recorded and tracked through each user's PIN, providing a seamless audit trail. More than 30 different types of receipts and reports can be printed on the system's high-speed printer, including end-of-day activity, cash removal, and individual user reports.

▸ **COMMUNICATE:**

The CacheSYSTEM® 7900 integrates seamlessly with application service providers, allowing real-time access to analytics and transaction data remotely or from the back office.
