Quiet Jog™ Automatic Jogger/Justifier

Omation
a division of Opex Corporation

We Made it Better. We Made it Quiet.

The Omaton Quiet Jog has been designed from the ground up to create a more comfortable and productive working environment for mail handling and document processing. It jogs and justifies documents and envelopes with ease...and at a much lower noise level than ever before possible.

This versatile piece of equipment:

- Provides quick, efficient alignment of various media—fine-tuning for the next step in high speed processing.
- Helps separate different sizes of envelopes, checks and documents.
- Is a valuable addition to multiple areas—including the mailroom, remittance processing and printing operations.
- Moves contents of envelopes away from the edge for cutting confidence.
- Justifies content edges to help prevent jams during automated processing.

How does Quiet Jog do so much with so little noise? Its ingenious design features an adjustable air gap that dampens noise as the vibration jogs and justifies. You can see the difference...and hear it!

Simple, User-Friendly Operation

Operators will also appreciate Quiet Jog's easy operation. Controls consist of an On/Off switch and a rheostat to control the degree of vibration. The operator loads envelopes or documents in its convenient, ergonomically placed rack. Once turned on, Quiet Jog vibrates. To set the proper amount of vibration, the operator turns the rheostat control clockwise to increase vibration, or counterclockwise to decrease it. It's that simple. And that efficient.

Other Features Include:

4-POCKET TILT RACK—for easy loading of multiple sizes and shapes.

SOLID METAL CASTINGS—precision-casted and heavy for quiet stability.

ALL-MAPLE DECK—adding to Quiet Jog's attractive appearance.

6 RUBBER MOUNTS—1 on each corner and 2 in the center for added stability.

LONG NECK OPTION—a long neck extension provides a sturdy, portable configuration.

The One-Source Resource

Since Omaton invented the Envelopener in 1974, we have gained a reputation for innovation, excellence, economy and dependability throughout the world. Now, as a division of OPEX, two of the most highly respected names in the industry bring you a full range of high speed, high quality mail processing equipment for every size operation. Quiet Jog has been designed to be fully compatible with our complete product line.

You can see the attention to detail everywhere. And be assured that it meets all international standards. Durable and reliable, the Quiet Jog will give you years of worry-free operation. In the rare instance when service is required, you'll be very pleased because we realize how important it is for you to maintain uptime. We are committed to answering service calls quickly—within four hours in most cases!

We think you'll agree: Quiet Jog is quietly superior to any other jogger on the market.

Specifications:

Length:	20.5" (52.07 cm)
Depth:	14.5" (36.58 cm)
Height:	18.5" (47.00 cm)
Weight:	100 Pounds (45.25 kg)
Power:	110-120 VAC 60Hz, 3 amps 220-240 VAC 50Hz, 2 amps

Quiet Jog easily separates different size envelopes...

...plus checks and documents for more efficient processing.
