

## CDS-9L

### Coin Kiosks

We created the CDS-9L for cost-conscious businesses that want the advantages of our award-winning CDS-9. The CDS-9L devices are front access and non-escrow, and they run on Connect on-Device software. Choose from non-sorting or sorting configurations, as well as the same broad range of flexible coin storage options as the CDS-9.

### Features

- Scalable, modular platform
- Functions as a hybrid coin deposit back-office automation solution
- Operates on the Connect platform technology stack
- Best-in-class bulk coin deposit, approved by ETSC
- Intuitive interface, easy to use
- Stores 14,000 to 60,000 coins (varies by currency and storage solution)
- Multi-bag system available for six mixed coin bags
- Sort up to 8 denominations, storage options include sorting bags or boxes
- Includes the industry-leading Connect on-Device™ cash management machine operating system
- Part of the PayComplete™ Connect platform

### Benefits

- Flexible software platform built to meet current and future demands
- Earn money via commission
- Save money on external coin purchases
- Products have dual hardware functionality and pay for themselves through consumer coin deposit
- Increase consumer loyalty
- Hardware maintains its value and relevance year after year
- Boost in-store traffic and attract new customers by offering coin redemption service

## Coin Kiosks

PayComplete's coin kiosks enable coin deposit and value redemption, providing fast and accurate counting of coins along with transaction data capture and processing. As a consumer service, kiosks allow retailers to create a new revenue source and banks to offer value added services to their customers. Transportation companies also use our kiosks to quickly count and secure funds from bus or metro operators at the close of their shift.

### A complete solution: devices, software, and services

Operators can customize the coin kiosk UI to fit any market application and user flow, adding their own themes, branding, and on-device advertising. When used with PayComplete's Connect or related modules (e.g. RetailConnect and TransportConnect), this multi-purposed device can both attend to consumer needs and reconcile business operations while transmitting transaction data and fill levels to the Connect dashboard.

Technical Specifications	
COUNTING SPEED	Up to 900 coins/minute
COIN DIAMETER RANGE	14 – 33 mm
COIN THICKNESS RANGE	1.0 – 3.5 mm
STORAGE CAPACITY, NON-SORTING (BASED ON EUR COIN ESTIMATES)	Coin vault (standard and self-locking): up to 36,600 coins Coin box (dual for ADO): up to 28,800 (2 x 14,400) coins MBS (medium tube): up to 14,400 (6 x 2,400) coins MBS (large tube): up to 25,200 (6 x 4,200) coins
STORAGE CAPACITY, SORTING (BASED ON EUR COIN ESTIMATES)	Boxes and bags: up to 33,600 (8 x 4,200) coins
COIN PROCESSING	Bulk processing of up to 900 coins per minute. Sensor technology is approved Article 6 (1) of Regulation (EC) No 1338/2001.
COIN ESCROW	No
SIZE (WXDXH)	22.8 x 28.4 x 55.5 in. (580 x 720 x 1,410 mm)
HEIGHT OF COIN DEPOSIT	38.1 in. (967 mm)
WEIGHT	441 lb (200 kg)
POWER	100 – 264V, 50/60Hz, 110W
SOFTWARE	Connect on-Device
PRINTER	Receipt printer, 80 mm thermal with presenter and retrac
DISPLAY	15-in. TFT color touchscreen
OPTIONAL PERIPHERALS	Non-encrypted pin pad; Card reader (motor, dip)
NOTE SIDECAR	Not supported (will only function as slave device)
