

CashComplete™

RCS-400 2.2

Multi-Till Solution

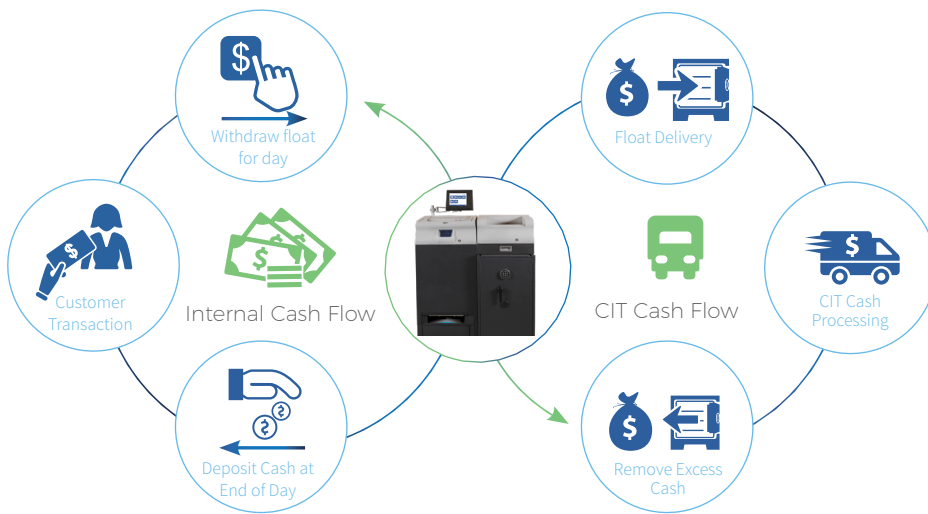

Grey on the Outside Amazingly
Bright on the Inside

Transform Your Cash Handling

The CashComplete™ RCS Solution transforms your cash handling into smart cash management, improving your business at all levels. Paired with our unique suite of software the RCS Solution is a strong back office solution for any market. RCS-400 2.2 now comes with a flexible system for different tills to make the solution fit to your detailed needs.

Turn Cash into Real Value

The RCS Solution is a powerful automator for your back office operations. Make this smart solution part of your daily operations and decision making, instead of spending hours on administration and counting. This ensures a quick return on investment through dramatically improved cash management.

Pair the RCS-400 2.2 with a banknote management module to complete the automation of your cash

Efficiently Cycle Cash All Through Your Business

The steady flow of cash into your back office needs to be counted, allocated and secured quickly and efficiently. With the RCS Solution you take control of your cash through an efficient cash cycle in all areas of your business, from internal cash handling to CIT operations. This ensures both time and cost savings, as well as an improved customer service.

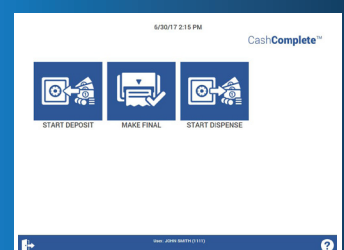

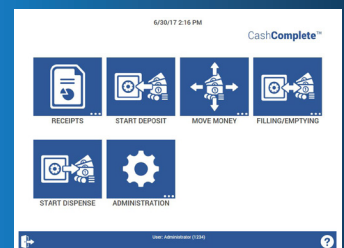

The RCS-400 2.2 is the first choice in cash management for the distribution, leisure and public transport sectors

Optimised financial and operational control

The RCS-400 2.2 works with the CashComplete™ Connect management software to provide you ultimate financial and operation control of your cash flow. This cash management solution can be connected to an existing network and can be controlled remotely. It maximizes the value of your business as you benefit from the best in cash management technology.

- ERP Integration
- CIT Integration
- Report Generation
- POS Integration
- Financial control
- Optimised availability
- Automatic Reconciliation
- Connect 24 hours/day 7 days/week

Explore True Cash Management

The Simplest Process Can Be the Most Revolutionary

We believe that cash management can be fast and require minimal interaction. We offer you the benefit of automating your cash flow so that you have it in real-time on your computer or other connected device when you need it. It's as simple as that with the CashComplete™ Connect Software.

Features and Benefits

- Streamlined Cash Management
- Improved In-store Cash Flow Management
- High Cash Security
- Issuing automated floats/banks
- Optimized CIT deliveries and pickups
- Counterfeit detections
- Reduced cash handling costs
- Secure, fast & accurate processing
- Reduced shift turnover time
- Faster reconciliation
- Customizable Multi-Till system

Flexible Multi-Till Solution

The Multi-Till Solution is giving the retailer a freedom to use the existing Tills already used in store together with the RCS-400 coin recycler solution. The Multi-Till Solution are able to handle the most common Tills available on the market*. This will optimize the dispense operation by having the coins sorted into the correct pockets, which will save valuable time and minimize the risk of wrong coin in wrong pocket.

The Till dispense function is optimized to have the correct amount of coins in each pocket, this will minimize spillage and coins to be carried in other ways. When the Till is inserted the dispense operation starts automatically by a sensor activation, this avoids the risk of having coins being dispensed inside the machine without the presence of a Till and saving valuable time.

The coins are dispensed parallel with the notes. When notes are ready and taken out of the RCS-500 the Till is ready to be taken out of its position and the cashier is ready to start working! When the RCS-400 2.2 is in deposit mode the Till compartment is closed and coins are available to be sent to transport box when needed. The Multi-Till Solution optimizes the valuable time in the store!

Patent Pending

* If your Till is not presented in the document 5004836-000 please contact the SUZOHAPP office for a proposal for the adjustment.

Effective Management
With its recycling capacity of up to 16,000 coins and 8 denominations

Banknote Recycling
The RCS-400 2.2 is designed to be associated with a Bill to Bill or a MDS for processing and recycling banknotes

Large Capacity, Secure Storage
The "overflow" box increases the total capacity from 5,500 coins to 21,500 coins, which are stored within the safe

Electronic Locks
Facilitates management of back-office processing

Design
Low working height and light indications make the RCS-400 2.2 one of the most user-friendly solutions on the market

The Software Platform
The RCS-400 2.2 is connected to the CashComplete™ Connect Intelligence software for optimal management of your money

Distribution of Coins
The distribution of cash is made easy by depositing change in a carrying case

Better Technology
Our unique innovations make our recycling solutions some of the most reliable on the market

Proven Technology

Flexible Multi-Till Solution
The Till dispense function is optimized to have the correct amount of coins in each pocket, this will minimize spillage and coins to be carried in other ways
