

Vision neXt™

The **Vision neXt** is our total teller automation platform helping banks transform their branches into customer-centric service centers. We've added unique features such as our patented auto-alignment mechanism and swing-open covers to the proven reliability for which Panini is known, packaged in a new, compact European design. All of this increases a bank's productivity, minimizes operator training, and eliminates the need for additional teller devices, lowering operational costs.

This Revolutionary Platform...

 Leverages the world's largest installed base and most trusted brand in distributed capture — the Panini Vision X — meeting and exceeding the quality and innovation benchmarks customers have come to expect from Panini.

 Provides rich functionality, optimized ergonomics, price/performance leadership, the industry's best total cost of ownership, and demonstrable savings, backed by Panini's world-class service and support capabilities.

 Features breakthrough innovation and versatile capabilities:

- Automatic document alignment to ensure transaction accuracy and integrity
- Multi-format document capture to fully extend investment to document and transaction automation
- Economical multi-function printer to enable a wide range of printing capabilities in one compact and cost effective device

Trust. Value. Innovation.

The Vision neXt is built on a foundation of distributed capture expertise embedded within the genetic code of Panini.

“As a payment technology innovator, we are not bound by conventional thinking, and the Panini Vision neXt is a testament to our ongoing effort to deliver breakthrough technology that exceeds the high expectations of our customers and partners.”

Michael Pratt,
CEO, Panini

Vision neXt™

State-of-the-Art Advanced Graphics Printer (AGP)

Capable of printing customer receipts, endorsements, validations and more.

Prints up to 14 lines of text and graphic images including logos and check images.

Full color, Dual-Sided ID Card Scanning

For new account creation or customer identification applications.

Advanced Auto-alignment

Virtually eliminating the need to hand jog or machine jog items, creating dramatic savings related to rework and errors.

Practical and Breakthrough Innovation

Accurate MICR and Advanced Imaging

Advanced MICR reading algorithms – including optical correction for optimal decoding accuracy – and superior grayscale and color duplex scanning.

Exception Pocket

Efficiently manages foreign items, rejected transactions, and wrongly positioned items on the fly.

Ergonomic design

With swing-open covers allowing complete visibility to device interior for cleaning, jam removal, and ink-cartridge replacement.
